III. Memo to Match Officials

To: All Match Officials Selected for MLS NEXT match assignments in 2023-24 Season.

From: Officials Management Group

Welcome and Congratulations on having been selected to officiate in MLS NEXT!

It is our distinct pleasure to coordinate and direct officiating services for MLS NEXT and in doing so work directly with MLS NEXT Operations and a system of over 50 National and Local Assignors. It is the goal of OMG to provide you with the necessary information and support to enable you to perform the duties of your assignment in a most professional manner.

Please use this Referee Handbook as a guide to your pre-match preparation and post-match duties and responsibilities as you work MLS NEXT matches this season.

By following the procedure outlined in this manual you will avoid emails or phone calls requesting additional information.

Use **MLS Match Day Contacts** listed on the previous page to resolve your match day issues.

Feel free to contact OMG by e-mail (mlsnextref@officialsmgtgroup.com)

MLS NEXT endeavors to provide opportunities for a match official to develop quality match experience, management skills, professionalism, through developing relationships with the coaches and players. Too often, coaches and players are ignored when there is conflict. Ignoring frustration then leads to aggression.

Additionally, when referees show arrogance, it leads to trouble. Instead, it is recommended referees use command presence and personality to communicate with players and coaches.

Actively use reflective listening so they know they have been heard. They don't expect you to agree with them, they just want to be heard. Show respect and you will receive respect in return.

On behalf of MLS NEXT, we wish you all the very best in the achievement of your officiating goals and objectives as we work together through this third season.

C. Substitutions

Substitution Moments

- Any stoppage of play which the Referee at his/her discretion allows a player substitution, may include but not limited to the following: Throw-in (either team), Goal Kick, Corner Kick, after a Goal, stoppage for Player/Staff Misconduct, stoppage for injury.
 - Halftime does not count as a substitution moment
- U13 & U14 = Unlimited over 3 moments per half, plus HT. No re-entry per half/period.
 - With exception for head injuries
- U15 and above = 7 substitutions over 3 moments per Match, plus HT. No re-entry.
 - With exception for head injuries
 - Teams U15 and older are responsible for supplying substitution passes and recording all information
 - It is the referee's responsibility to confirm all information is correct

Substitution Example U13-U14

- 32' Stoppage 1 (1 substitution 3 players) 2 moments remaining
- 34' Injury Stoppage 2 (1 substitution 1 player) 1 moment remains

Halftime (1 substitution 2 players)

- 65' Stoppage 1 (1 substitution 1 player) (2 moments remaining in the period/2nd half)

Substitution Example U15-U19

- 32' Stoppage 1 (1 substitution 1 player) **6 substitutions, 2 moments remaining**
- 34' Injury Stoppage 2 (1 substitution 1 player) **5 substitutions, 1 moment remaining**

Halftime (1 substitution 2 players) **3 substitutions, 1 moment remaining**

- 65' Stoppage 3 (1 substitution 2 players) **1 substitution unused, No moments remaining**
 - Even though the team may have players that have not entered the match they have no more substitution moments left, the team may not make another substitution because all 3 moments have been used. (With exception to the Head Injury Substitution as indicated below).

D. MLS NEXT Head Injury Substitution Policy

A Player who is suspected to have suffered a head injury may be substituted while being evaluated by a QMP (temporary substitution). The substitution for the evaluation of the concussion/head injury will **not** count against the Team's total number of substitution moments in the match.

If the Player is deemed by a QMP to **not have suffered a concussion**, the Player may re-enter the match at any stoppage of play and must replace the temporary substitute; this head injury evaluation substitution will not count as a substitution moment. Furthermore, the temporary substitute will be able to re-enter the match at a later time if not previously substituted out earlier in the match for a non-head related substitution.

If the Player is deemed by the QMP to have suffered a possible concussion and is not cleared to return to play, the temporary substitute will be considered a permanent substitute.

Policy Principles

- A “concussion substitution” may be made regardless of the number of substitutes or moments already used
- If all substitutes have been used the “concussion substitute” can be a player who has previously been substituted
- Each team is permitted an unlimited amount of “concussion substitutions”

VI. Authority to Delay or Postpone a Match

- MLS NEXT League Office is the only Authority to Delay, Cancel or Postpone a scheduled Match.
 - If a situation arises that you as an official need to request to cancel, delay a match you must first get that approval from the Match Day contact for MLS NEXT (Page 3)
 - Do not postpone a Match or depart from a venue before contacting a MLS NEXT Representative.

A. Match Day Emergencies

- **Missing Crew member on Match Day**
 - Officials that are delayed if able should contact their other crew members, their respective assignor, and the MLS NEXT Match Day contact
 - If a Crew member is missing from the crew and has not contacted any one on the crew, the referee or senior AR should contact their respective assignor and then MLS NEXT Match Day contact
- **Weather**
 - Match delays due to weather must be reported by the Referee who is responsible for contacting the MLS NEXT Match Day contact.
- **Injured player(s)**
 - Injuries that occur during the Match involving a player(s) should be left to the QMP to manage and if need be contact further emergencies services as required.
 - If the injury is severe and needs further assistance the MLS NEXT Match Day contact must be alerted.
 - Referee must report all severe injuries in the notes section of the Match Report
- **Spectators or Outside Interference**
 - Match delays due to spectators or outside interference must be recorded in the notes section of the Match report and reported to the MLS NEXT Match Day contact.
- **If personal safety is at risk contact 911.**

B. Improper Field Conditions

- There can be **NO CONES** used in place of any lines during an MLS NEXT Match, under any circumstance.
- If you are at a facility during the pre-Match routines and notice any cones being used in place of lines (even if it's just a partial use on one area of the field), please take the following steps:
 - Speak to the Home Club head coach/director/facility manager and inform them that the Match will not be played unless/until they can fully line the field.
 - If they can get the field fully lined or move the Match to a different fully lined field at the same complex in a reasonable amount of time (defined as kicking off the match within 15 minutes of the original KO time), then the match(es) can be played as scheduled.
 - If the Home Club informs you that they cannot get a fully lined field, you should call the MLS NEXT Match Day contact to inform them of the issue, and a member of the MLS NEXT Staff will inform you immediately how to proceed.

- At that time, the representative will tell the Staff and the Referee(s) that the Referee Crew is being dismissed for the day and the Match will not be played due to the Home Club not securing a venue that meets MLS NEXT Academy Standards.
